

## Extreme Domes for Residential Security

Extreme CCTV Hi-Impact domes are extensively applied for residential projects across the globe. Travis Electronics selected the Hi-Impact domes not only for their excellent vandal-resistant properties, but also for their sleek-looking aesthetics that are well suited for residential environments.

***“Extreme Hi-Impact domes are easy to install and very reliable in their performance. Phenomenal images.”***

Travis Elmer, Travis Electronics  
Escondido, CA

### Problem

#### Residential surveillance at vandal-prone locations

- Residential complexes require vandal-resistant surveillance equipment
- Surveillance equipment must be aesthetically pleasing
- Cameras must operate under harsh weather conditions
- Video must be captured on a 24/7 basis, especially during dark hours
- Security lighting must not interfere with existing lighting schemes
- Video images must be high quality to be useful for law enforcement
- All equipment must be certified for electrical safety

Omega technology in the EX40MNX provides 40ft active-infrared night vision while minimizing internal dome reflection. The EX40 also incorporates an optical lens shield, which helps to eliminate "halo" effects for superior night time images.

### Solution

#### Hi-Impact Domes for Sleek Vandal-Resistance & Night Vision Performance

- Vandal-resistant design withstands even the most violent attacks from baseball bats, crowbars or sledgehammers
- Constructed of beautifully finished anodised aluminum for sleek looks, unobtrusive styling and performance in all-weather conditions
- Up to 40ft night vision performance with Integrated Day-Night™ models
- Active-infrared is invisible and does not spoil ambient lighting schemes
- CSA / UL certified for safe, legal installations
- High-resolution video imaging on a 24/7 basis

EX48 Conical No-Grip™ design is sleek, compact and safe.

### Results

#### Improved Security Means Safer Homes

- Effective surveillance around the clock, day or night
- Vandal-resistant design makes cameras resilient against attacks
- Crime reduction and crime deterrence
- Safer communities
