

REG® License Plate Capture Nabs Casino Crooks

REG License Plate Capture Cameras have improved casino security across North America by providing effective vehicle surveillance and access control. At Rainbow Casino, MS, police used images from REG cameras to finally capture a criminal who repeatedly preyed on vulnerable adults. The culprit had frustrated authorities for months, cheating victims of cash, bank cards, PINs and checks. Cooperating with the Mississippi Office of the Attorney General, Rainbow Casino delivered a clear license plate and vehicle image which led to the arrest. The accused pleaded guilty to the charges and received a jail term of several years.

“The authorities were after this person for months but she always found ways to escape the law. The REG cameras delivered police the evidence they needed to put this criminal away.”

Problem

Casino Operators Cannot Identify Vehicles Entering Their Properties

- Conventional cameras do not effectively and consistently capture license plates on a 24/7 basis
- Difficult speed and lighting conditions make reliable capture impossible
- Casino cannot prevent the entry of unwanted vehicles
- Not possible to definitively identify the vehicles entering casino properties

Solution

REG Cameras for Effective 24/7 License Plate Capture

- REG cameras “Get the Plate” of every vehicle entering & exiting the casino
- Award-winning active-infrared and filtering technology overcome problems associated with reflectivity, glare, headlights, darkness and speed
- High-resolution imaging delivers clear and usable images of license plates
- REG provides real-time plate capture and irrefutable evidence

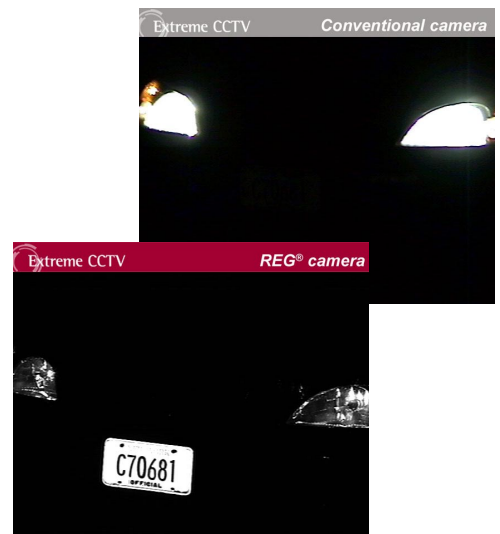

Results

Extreme Technology Improves Security at Casino

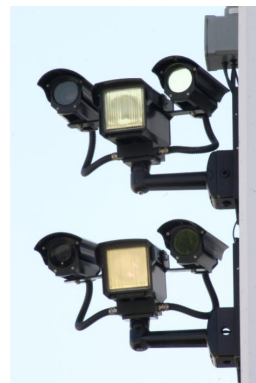

- Effective vehicle surveillance and vehicle access control
- Casino operators know which vehicles are coming and going
- Unwanted visitors kept out of casino
- Improved casino security, day and night
- High quality surveillance video allowed successful conviction of known felon

REG cameras show clear images of license plates, irrefutable evidence that helped police convict a criminal preying on senior citizens.

REG cameras are used for effective license plate imaging at casinos across the country. REG-DUAL models, like the multi-lane installation above, deliver both plate images & overview images of the vehicle.
