

### Key Features

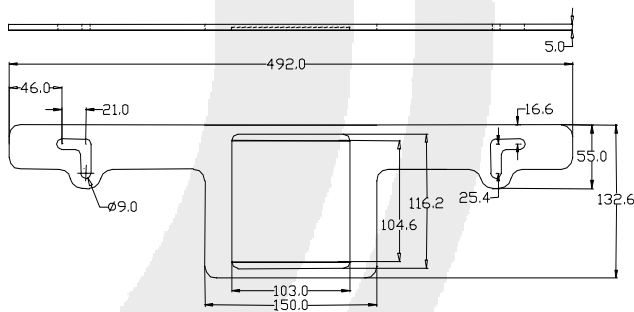

- Specifically designed for the Pelco Legacy Motor
- Allows for easy night-vision upgrade to current PTZ systems

### Product Description

An effective metal T-Bar adapter specifically designed for the Pelco Legacy Motor. This adapter allows for upgrades of existing Legacy camera/motor locations from day-only operation to 24/7 day-night operation.

The EXMB.012 adapter allows simple installation of two UF500 infrared illuminators. Care is required to ensure that the power cables from the UF500 illuminators have enough slack to allow required pan/tilt movement. (Slip-ring models that can travel more than 360° are not recommended.) A dual power supply for the twin UF500 units would have to be wall or pole mounted.

### Technical Drawings

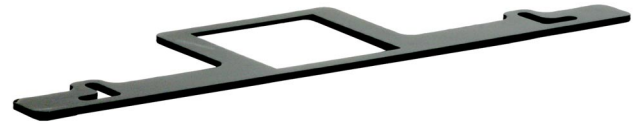

Note: Dimensions in millimeters. 25.4 mm = 1 inch

### Specifications

<b>Construction</b>	Laser Cut Steel
<b>Finish</b>	Black (Standard) White (Optional) (to match Pelco Housing)
<b>Dimension</b>	492 mm x 132 mm x 5 mm 19.4" x 5.2" x 0.2"
<b>Weight</b>	1.9lbs (0.88 kg)

### Product Image

Above: EXMB.012 Legacy T-Bar

### Example Specification:

Camera:	FSX800 by Extreme CCTV
Camera Housing:	Pelco – EH4718L
Pan/Tilt Motor:	Pelco – PT780 [except for SL models]
Infrared:	Two (2) UF500 Illuminators (various models)
Infrared PSU:	UF500.003 -Twin Power Supply
T-Bar Adapter:	EXMB.012 – Legacy T-Bar

### Performance Notes

- All PT780 Models are compatible except SL versions. SL (slip-ring) models allow +360° rotation that would cause cable entanglement.
- For EXTREME night-time performance beyond 600 ft. (200 m), use camera model FSX800 by Extreme CCTV and UF500 at 730 nm wavelengths
- For EXTREME color-by-day and infrared-by-night performance, request a Dual-Sensor kit:  
DXK - EH4718
