### **NOTE !**

The installer must conform to all local Worker's Compensation Board Regulations during the installation of this product.

---

Only qualified personnel shall install any **Extreme CCTV®** surveillance product.

**Extreme CCTV®** will not be responsible for injuries or damages resulting from the improper installation or use of any product sold by **Extreme CCTV®**, their agents, distributors or dealers.

## DESCRIPTION

The **EXMB.030** is an adaptor specifically designed to integrate the award winning surveillance cameras of Extreme CCTV® with the Parapet Mounts of Pelco® Video Security Systems.

This adapter allows the upgrade from “daytime-only” dome cameras to high-power, Integrated Day Night (IDN™) surveillance solutions. The **EXMB.030**’s fast and simple installation enables security professionals to offer high-performance, 24/7 security under all lighting conditions, including total darkness.

## FEATURES

- Designed for Pelco® Parapet Mounts
- Allows for instant upgrades to IDN™ Cameras
- Quick and easy installation
- Cable Managed
