

Ulead®

COOL 360™

Photo Panoramas Made Easy!

Facts & Features

Ulead® COOL 360™ quickly and easily allows photo editing consumers to transform a series of photos into 360° or wide-angle panoramic scenes for an immersive viewing experience. COOL 360's intuitive interface and easy-to-use wizard deliver great-looking panoramas fast while advanced warping, blending and alignment tools ensure excellent results. Share finished panoramas via email, create Web pages or insert them into documents and presentations. Ulead COOL 360 lets you move beyond traditional photos!

EASY AND FRIENDLY

THE BASICS

- Create immersive 360° panoramas in just 3 steps!
- Helpful New Project Wizard guides users through project setup
- Attractive WYSIWYG interface
- Easily recognizable icons
- Preview images before selecting them for a panorama project
- Conveniently arrange image thumbnails using the drag-and-drop or reverse image sequence functions
- Supports popular image formats including BMP, JPG, TIF, PCD and PNG
- Directly acquire images from TWAIN-compliant digital cameras and scanners
- Rotate images inside COOL 360
- 99 levels of Undo/Redo
- Comprehensive Help system and ToolTips

MORE USER FRIENDLY OPTIONS

- Save time by modifying existing panorama projects
- Quickly and easily locate existing projects using image thumbnails and Project Information
- Immediately replace flawed or add missing images using the Select Files or Acquire command

POWERFUL FEATURES

FUNCTIONS

- Support for full 360° and wide-angle panoramas
- Automated photo warping, aligning, and blending reduce the need for manual adjustment
- Minimize color variances between adjacent images using the Blending function
- Create a smooth appearance between images using the Warping function
- COOL 360 automatically determines overlap for all images
- Manually control the alignment of photos to produce the results you want

ADJUSTMENTS

- Control the appearance of separate images for image correction or artistic effects
- Quickly adjust image color, brightness and contrast to harmonize the total panorama
- Rotate or change the perspective of individual images to unify image angles
- Built-in Viewer lets you preview your panorama during the creation process
- Crop stitched panoramas to remove undesired portions of a panorama

CAMERA LENSES

- Select a lens setting from 98 preset camera lenses to control warping results
- Customize, preview and save the best lens settings for your panorama
- Download additional camera lenses from the Ulead Web site

OTHER

- OLE2 support lets users insert panoramas into Microsoft Office files
- Double-click pasted panoramic objects for interactive panoramic viewing

VERSATILITY

SAVE

- Save panoramas in popular file formats including MOV, BMP, JPG, PNG or TIF files

EMAIL

- Send panorama emails directly from COOL 360
- No need for recipients to download plug-ins or additional software when the tiny viewer is attached to your COOL 360 email

WEB

- One-click Web page preview
- Automatically generates necessary Web files including HTML, UVR and JPG
- Visitors can quickly download the tiny Ulead COOL 360 Viewer plug-in to view your stunning Web panoramas
- Automatically generated HTML code is easily copied into HTML software
- Determine the Web viewer window size for optimal viewing pleasure

SCREEN SAVERS

- Create Screen Savers in one-click
- Screen saver files are automatically listed in the Desktop Display Properties Screen Saver menu

PRINT

- Multiple print formats including single page, one row, or two row panorama printouts

COPY

- Easily copy then paste panoramas from COOL 360 into Microsoft Office files

EXPORT

- Create and store instantly viewable panorama files by attaching the built-in viewer to your panorama
